President: Mr. Joan Vidal

Chief Staff Person: Ms. Encarna Domingo

AASA Representative: Mr. Raul Arroita

Number of Members

Over 500 professionals plus 30+ partner organizations

Objectives of the Society

- The study and development of techniques for heating, cooling, ventilation and air conditioning, plumbing, water, gas and electricity, rational use of energy and care for appropriate actions for the protection of the environment;
- the collection and dissemination of scientific information from these techniques;
- the organization of workshops, seminars and conferences related to these topics;
- the promotion of the interest in knowledge of new techniques and translation of bibliography to our language;
- conducting courses on building facilities for wider dissemination of unpublished knowledge and novel apparatus;
- Collaboration in organizing outings for socio-technical entertainment and techno-cultural visits to national and international expositions.

Future Conferences

Next events:

- Energy efficiency congress during CONSTRUMAT fair exhibition (Barcelona, May 2011)

- International Energy Efficiency Financing Protocol (IEEFP) presented by EVO - Efficiency Valuation Organization (Barcelona May 2011)

Past events:

- 2nd edition of the International Performance Measurement and Verification Protocol (IPMVP) training for CMVP professional certification (October 2010)
- 1st edition of the International Performance Measurement and Verification Protocol (IPMVP) training for CMVP professional certification (March 2010)
- Course on Geothermal installations (February 2010)

Organization

- Executive Board
- Committees:
 - Technical
 - Social
 - Entrepreneurship
 - Municipalities
 - Forum of Refrigeration
 - Fira de Barcelona (Expo)
 - Energy Efficiency in Buildings
 - Renewable Energies and Environmental
 - Honor Committee
- Branches
 - Barcelona
 - Girona
 - Tarragona

International Contacts

- Members of AASA
- Members of CIAR
- In-kind supporter of EVO
